FORUM EU...Forum Malta fl-Ewropa's television production on Education 22

This month will see the kick-off of *FORUM EU*, a new weekly 30-minute television programme, produced by *Forum Malta fl-Ewropa* in collaboration with Education 22. This new television production follows from the positive response obtained by Forum's past productions, namely *L-Unjoni Ewropea għalija* on TVM and *Sehemna fl-Ewropa* on Radio Malta. *Forum Malta fl-Ewropa* has teamed up with Education 22 for a highly educational and informative, yet entertaining, programme.

FORUM EU's raison d'être is to empower viewers by providing them with the tools to access EU-related information. *FORUM EU* is yet another initiative targeted at bridging the gap between the European Union and its citizens. This is not only a Strategic Objective of Malta's Foreign Policy, but it is also the raison d'être behind the European Commission's White Paper on a European Communication Policy published in February 2006.

FORUM EU will in fact be offering its viewers an opportunity to learn about topical issues by way of interviews and features on current affairs on the EU Agenda that are of national interest. The programme will also outline services offered by various offices and agencies locally. It will serve as a source of information on funding opportunities available to Maltese citizens, through the various interviews which will be conducted throughout the series.

FORUM EU, produced by *Forum Malta fl-Ewropa* in collaboration with Education 22, will be presented by Norma Saliba and aired on Education 22 on Mondays at 6.30pm. The programme will be repeated twice a week – on Tuesdays at 9.30am and Saturdays at 7.30pm on the same station.
