# Using Ideal-ist

## Submit a Partner Search

- *Register as a Proposer*
- <http://www.ideal-sit.net/ceateMember>
- *Log in, create and submit a Partner Search*

## Submit an Expression of Interest

- *Reply to open Partner Searches if you match the profile sought and have the expertise to carry out the activities foreseen*
- <http://www.ideal-ist.net/partner-search>

## Be informed

- *Subscribe to Mailing list*
- *Regular communications on open Partner Searches, Info Days, Brokerage Events ...*
- [http://www.ideal-ist.net/partner-search/newsletter\\_subscribe](http://www.ideal-ist.net/partner-search/newsletter_subscribe)

# Ideal-ist Success Story

So far in FP7

- about **500 partner searches** published with a Quality Label
- these represent **8,4% of the total proposals** submitted in ICT calls
- More than **18,000 responses** generated
- **> 90%** of the cases find suitable partners
- **~ 80%** of the cases finally submit a proposal
- **between 22% and 42%** of these are evaluated **over thresholds** (depending on the call), with an average always over 11/15

# How it Works

**Step 1:** Proposer **inserts** a new **Partner Search** online

**Step 2:** The PS is **checked** by **local representative** & then **validated** by **Quality Team**

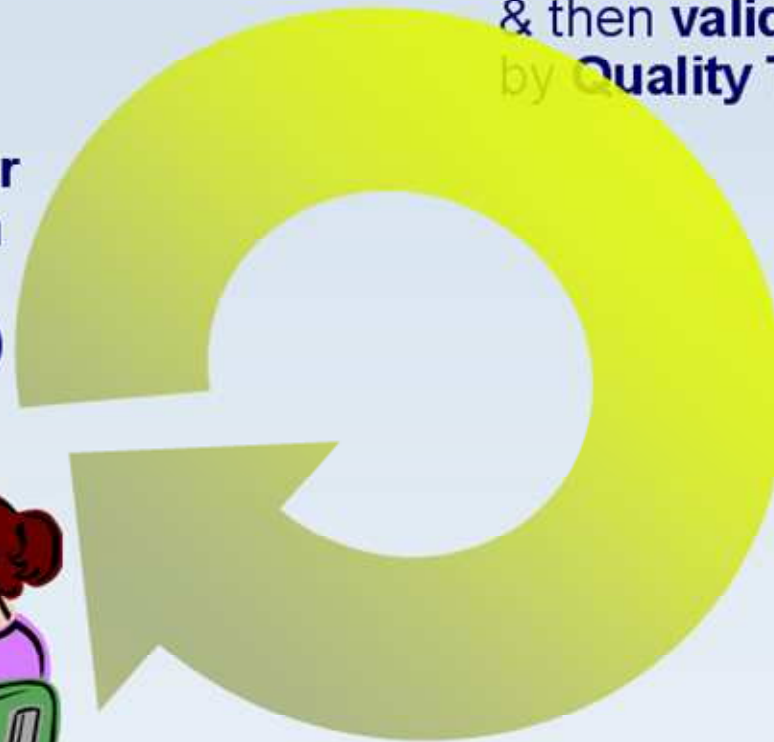

**Step 5:** the **proposer** replies to Expression of Interests & **chooses partner(s)** to build Consortium

**Step 4:** Potential partners send **Expression of Interest (Eoi)** to the proposer

**Step 3:** The PS is **published** & **disseminated** to the subscribers of the **national ideal-ist mailing list**

## Partner Search

### How do I use the Partner Search Service?

- New and want to [start your own Partner Search or Competitive Call](#)? Choose "New Proposer?"
- [Look for Open Partner Searches](#)
  - [View all](#)
  - [Search for specific Partner Searches](#)
- [Look for Competitive Calls](#)
  - [View all](#)
  - [Search for specific Competitive Calls](#)
- **Registered Proposer?** Login on the right to start your own Partner Search or Competitive Call

Ideal-ist provides you with a sophisticated Partner Search Service.

The Ideal-ist Network creates opportunities to find partners to build a consortium for your ICT projects.

### Partner Search - General Information

One of the unique features of Ideal-ist is the Ideal-ist Quality Procedure applied in Quality labeling the Partner Searches

- **Quality Label:** To find out more on how the Quality Procedure works [click here](#) 
- **Partner Search:** To find out more on how the Partner Search works [click here](#) 

### You will find three ways of participation

- Proactively launching your own Partner Search, in those cases when you already have a project idea and need to complete your consortium.
- Proactively launching a take-up action for a competitive call, in those cases where you look for additional partners in your running IP or NoE

## PROPOSAL AT A GLANCE

This section intends to draw the attention of potential partners, by highlighting at a glance the proposal subject related to the Objective of the specific ICT Challenge of the FP7 Workprogramme.

### Proposal Name ■ (Required)

Please, indicate Full Name and Acronym, if available

## PROJECT DESCRIPTION

## Partner Search Form (Co-ordinators) 2/3

This section intends to provide a description of the proposal scope and necessary activities as well as expected outcomes.

### Proposal Outline

Please, indicate the scope of your proposal, and list the necessary activities to achieve the final objectives. State what results you expect to achieve within your project.

### Keywords

Please, indicate a few keywords or key phrases - put a keyword or key phrase per line - which best describe your proposal (e.g. photonic, digital libraries, international cooperation, elderly people, etc.). Keywords are used by potential partners in the PS search functionality to match personal ICT interests with proposals.

## PARTNER PROFILE SOUGHT

This section intends to describe the partner(s) you are looking for - indicate if you need one or more partners and the type of partner sought - in terms of skills and expertise which is required from him, tasks and activities that he needs to carry out. The quality of the replies (Expression of Interests) will mostly depend on the specifications provided below; the more precise you are the better your chances of finding the right partner(s)!

### Required skills and Expertise

Some examples taken from the past: Experts in Data Mining; Experts in 3D and multimedia (Modelling, illumination, animation, mapping, audiovisuals...); Virtual Reality (Development of interactive 3D software and peripherals control, etc.); Infrastructure Specialists (e.g. expertise in one or more of the following: networks, interconnections, network protocols, gateways, operation systems, middleware), etc.

  

### Description of work to be carried out by the partner(s) sought

Some examples taken from the past: PROFILE 1: Develop a real case study to test the framework, contribute to the project requirements definition; PROFILE 2: Organisation of WS, Dissemination of Project Results; Profile 3: Perform a comprehensive study on the end to end connectivity to the person (mobile) and to the home environment; Profile 4: The partner would be involved in carrying out research and development work to produce the robotics platform/systems.

### Type of partner(s) sought

Some examples taken from the past: Hospital; Chambers of Commerce; Industrial end-user for user needs analysis and testing; Institutions having Digital Libraries (Libraries, Historical Archives, Museums), etc.

Please, tick the box if you are looking for a Coordinator, who would coordinate your proposal

### YOUR EXPERIENCE IN ICT PROJECT MANAGEMENT

Has your organisation ever participated in an IST/ICT Project before?

select ▼

Has your organisation ever coordinated an IST/ICT Project before?

select ▼

### EXPRESSION OF INTERESTS (EoI)

EoI will be sent to you by email and stored on the Ideal-ist server. As the Proposer of this PS you will access the secure area with your user id and password and view all received EoI at a glance. Please, access the secure area to answer all incoming EoI: a web tool will facilitate your job, you will be able to answer your EoI with a pre-defined but modifiable text and a simple click. Your identity will only be disclosed if your answer is positive, i.e. in all those cases you may consider to involve a potential partner in your proposal.

#### Inform a Colleague about received Expression of Interests (EoI)

Indicate if other contacts need to receive a copy of your EoI via email. Consider that you are still the only one having access rights to the secure area - which is user id and password protected - to view all the EoI at a glance for each submitted PS. Please indicate one email address per line:

## PROPOSAL AT A GLANCE

### Proposal name:

COALA - Collaborative Online and Leisure Activities

### Subject:

We are looking for partners interested in a project about keeping people connected beyond spatiotemporal barriers using face-to-face communication in visually attractive virtual surroundings and thus diminish the amount of unnecessary journeys and overcome limitations of physical mobility. This would also reduce the production of CO2. Therefore we want to provide a virtual reality system for holistic perception and experience that creates a sense of togetherness far beyond standard videoconferencing and that includes additional sensory information such as touch, olfaction, temperature and pressure. Thereby we aim to accomplish a collaborative experience in the context of shared time and space for the users, including those not familiar with desktop interfaces.

## PROJECT DESCRIPTION

### Proposal Outline:

People are becoming increasingly flexible concerning their choices of living environments due to job offers or individual preferences, and it is common for them to relocate multiple times in their lives. In order to prevent the loss of contact and to maintain social connections to families and friends, COALA will create virtual and augmented reality installations to resolve these issues and enable the users, independent of their computer literacy, to keep in touch with friends and family living in different locations on earth without having to travel. By these means the necessity of business travels could be reduced enormously as well. The main objective is to provide a realistic meeting environment that offers a holistic perceptual integration and a feeling of presence and gathering within virtual scenarios. We have therefore identified the following technological challenges: - VR and AR installations to create Telepresence and immersion in realistic environments - Secure connections between different locations - Privacy-aware communication - Intuitive input paradigms to include novice users, elderly, users with special needs

### Keywords:

Virtual Reality  
Augmented Reality  
Holistic experience  
Audiovisual communication  
Telepresence  
CSCW

# Response to Partner Search (Eol) 4/4

## PARTNER PROFILE SOUGHT

### Required skills and Expertise:

Experts in audiovisual integration Experts in AR and VR System developers Engineering partner for developing CSCW Experts in telecommunication and telepresence applications

### Description of work to be carried out by the partner(s) sought:

PROFILE 1: Attaching case study about the possibilities of creating holistic experiences PROFILE 2: Development of CSCW-prototype according to identified requirements PROFILE 3: Development of prototype for the AR/ VR and multi-modal experiences

### Type of partner(s) sought:

No type restrictions at the moment.

### The Proposer is looking for a Coordinator:

No

## PROPOSER INFORMATION

### Organisation:

CURE - Center for Usability Research and Engineering

### Department:

HCI Research

### Type of Organisation:

Research Center

### Country:

Austria

## Response Management Tool

Dear Proposer,

please use this Response Management Tool to reply to all Expression of Interests (EoI) received. Select the "Accept" button to access the standard message whereby you will inform the EoI Submitter that his application has been favorably evaluated. Select the "Reject" button to access the standard message whereby you will inform the EoI Submitter that his application has not been favorably evaluated. Note that you can personalise all messages before sending the email to the EoI Submitter. The message will only be sent, upon explicitly selecting the "send email" button.

To reply simultaneously to more than one EoI submitter with the same message, tick the above boxes of the EoI submitters you want to send the message to. Check that you have selected the desired button either 'accept' or 'reject', insert the preferred text, and finally select 'send email'.

**Accept**

**Reject**

**The Message below is a standard message, please personalise the Message to provide information on how you would like to proceed. Your contact data will be automatically forwarded to the EoI Submitter together with this message.**

Thank you for your Expression of Interest.  
I am pleased to inform you that your application to participate in our proposal has been favorably evaluated and I would like to discuss further details with you.

Best Regards  
The Proposer

 send email
